When you have your portrait taken you naturally want a GOOD one; to ensure this you must go to a place where not only the best appliances and artistic skill are to be found, but where also TIME can be taken to study your features, get their most pleasing expression, the most suitable light and graceful pose.
If the photographer lowers his prices too much he cannot take the necessary time to do his work well, but must run his customers through like sheep, trusting to the NUMBER to make his profit.
A sensible person will beware of such and prefer to go where fair prices are charged and every care taken to ensure the work turning out satisfactorily; such is the case at the "Gran Fotografia Platense" whose customers never having been driven away by excessively high prices do not require to be lured back by catchpenny reductions.

PUBLIC LANDS OFFICE.

The Commissioner of Lands, Don Nicasio Oroño, has issued his report for 1891, which is drawn up in a manner that shews Mr. Oroño is eminently fitted for the post. He begins by saying that the Lands Office was started in 1876 to facilitate the acquisition of land by immigrants in all parts of the republic, but its power for good has been completely nullified by the indifference of Congress or Cabinet to this department.

Here we have a country, says he, which produces crops yearly to the value of 300 millions currency or 90,000,000$ gold, but how small a portion of this is produced by State colonies? And yet the Government has expended more than £3,000,000 sterling in 15 years for the introduction of immigrants, from Europe, and the foundation of colonies. It is a sad fact, he continues, that the colony of Yerua in Entre Rios is all that can be shewn after such enormous outlay, an outlay sufficient to plant colonies along all the great rivers.

The report goes on to shew that when Mr. Oroño took charge of this office in August 1890 he found that all was chaos: the department had been so neglected during 6 years that documents were lying unattended to since 1884. Frauds had crept in, and more than 62,000 sq. miles of public land had been given away, right and left, to so-called "concessionaires" for the plantation of colonies, the locality of which has, in most cases, not yet been determined.

A new epoch, say Mr. Oroño, has commenced since the accession of Pres. Pellegrini, whose views are ably seconded by the prime-minister, Dr. Zapata. Their programme is to break up areas of land in suitable situations, as the proprietors of private colonies have done, and offer 100-acre lots at very low prices to immigrants, who will be allowed to pay at long dates. This is wise policy and we sincerely hope it will be carried out, although we could have preferred the free Homestead Grants of the U. States.

Since August 1890 the Land Office has despatched 2,656 claims: it has, moreover, filled up all the National colonies, let vast areas of land to squatters for cattle-ranches, and promoted wood-cutting in various parts. Only a year ago the Yerua co.ony was mostly a desert, but now the whole 180 sq. miles of its extent have been taken up by farmers, and the Office has had to refuse more than one hundred applicants. The same has occurred with the other State colonies. Heretofore farm-lots were only given to new-comers from Europe, but Mr. Oroño has very justly prevailed on the Government to make Argentines equally eligible. The following table shows the extent of public land disposed of, and the amount produced:—

	Sq. miles	Value, $ m.n.
1876-90.....	12,100	2,470,000
1891.....	540	1,760,000
Total.....	12,640	4,230,000

The sums received on account of the above sales were:—

	$
Cash.....	658,000
Bills.....	3,572,000
Total.....	4,230,000

The Office has, moreover, let an area of 2,635 sq. miles to squatters for a sum of $134,000, say $50 per sq. mile or $500 per sq. league. The sales of Public Lands down to Dec. 1890 averaged $2,000, per sq. league ($500 cash and $1,500 in bills), whereas in 1891 they were at the rate of $32,600 per league. This latter price comes out at the rate of 6 shillings an acre English or $20 per cuadra, the sales being mostly in small farm-lots to colonists, for grain-farming. The price seems rather high.

Mr. Oroño explains that the lands let last year to squatters at $500 (£30) per square league, say one penny per acre, were mostly situated in Santa Cruz, Chubut, Neuquen, Rio Negro and the remote Pampas, where settlers were formerly very few, viz.:

	Sq. miles.	Rent, $ m/n.
Santa Cruz.....	1,540	55,000
Tierra del Fuego	310	12,000
Pampas.....	275	13,000
Neuquen.....	320	21,000
Rio Negro.....	170	8,500
Yeruá.....	20	24,500
Total.....	2,635	134,000

The lands sold down to Dec. 1890 were—

	Sq. miles.	Value, $ m/n
Neuquen....	5,220	1,120,000
Chaco.....	3,010	1,050,000
Rio Negro..	1,870	105,000
Cordoba....	1,160	145,000
Chubut	210	10,000
Various.....	630	40,000
	12,100	2,470,000

In the 15 years ending Dec. 1890 the Government gave away 61,310 sq. miles of land among 222 concessionaires, who promised to establish that number of colonies. viz.:

	Grants.	Sq. miles.
Chubut.....	13	5,030
Rio Negro.....	14	4,100
Neuquen	44	12,800
Chaco.....	139	36,600
Misiones	4	1,000
Santa Cruz.....	3	1,000
Pampas.....	4	700
Tierra del Fuego	1	80
Total.....	222	61,310

The following concessions were, however, cancelled in April 1891:—

	Grants.	Sq. miles.
Neuquen	11	2,850
Chaco.....	36	10,500
Various.....	6	2,250
Total.....	53	15,600

The report winds up with a list of the concessions for felling timber, viz:—

	Concessions.	Sq. miles.
Chaco.....	13	1,700
Neuquen....	4	340
T. del Fuego	2	200
Total.....	19	2,240

The concessions vary from three to five years, and all stipulate the payment of 10 per cent. of the gross proceeds to Government, except those in Neuquen and one in Tierra del Fuego, which stipulate 7 per cent. As regards 11 of the concessions they specify that 281,000 logs per annum are to be take out: that of Nicolas provides for the cutting of 1,000,000 ft. per annum in Neuquen, that of Ferrari 500,000 ft. in Tierra del Fuego.

OUR LONDON LETTER.

(From our own Correspondent.)

HOLIDAY TIME.

April 22nd.

It is no use trying to deceive an acute though indulgent public. There is absolutely nothing to say. The stock exchange makes spasmodic efforts to do something, but succeeds indifferently; and when last heard of it was drooping all round. The courts are closed, parliament is closed. Most of the houses in Mayfair are abandoned to Penelopes in mob caps and suitors in blue or red uniforms. In the political world, or in so much of it as is not rusticating by salmon streams or at German baths, there is but one voice heard. It is the voice of dear Mr. Chaplin, who seems to be possessed by two ruling ideas; (1) that he is a cabinet minister and that it is necessary we should be continually reminded of the fact; (2) that through the witchery of his Allotments Bill he can rescue the agricultural labourer from the jaws of socialism. No one who has any self-respect reads Mr. Chaplin's speeches, nor does anyone listen to them who has a turn for music. By far the most interesting topic, until Buffalo Bill arrives—he is on his way—is the weather Without much exaggeration, I can say that only a few hours ago I was at Bexhill-on-Sea near Hastings. The hinter-land was still streaked with snow, and the thermometer recorded three degrees of frost. To-day in London the temperature is 73. We are again in the full blaze of that delicious summer weather which suddenly left us when the Easter holidays commenced. One needs be young and hearty to stand such vagaries. Elderly people, they tell me, complain of sciatica or something; and toothache is raging. And now for the Scissors. The most sensational bit of news I can find this evening comes from New York. One of the assassins of Lord Leitrim, who was murdered in 1876, has just died in Cambria county, Pa, and has left full confession—which must be assumed to be true. He was known as Hugh Boyle, but his real name was Stephen. He was an old soldier, and to the day of his death bore the highest character. His account of the murder and its causes is most romantic and interesting. You may find room for it, and I will not therefore anticipate the story. It is not often that one sympathises with an assassin, but in this instance it is at least impossible to sympathise with the murdered man. Everyone knows what the late Earl of Leitrim was, and if we wanted a pathetic illustration of life in Ireland under the rule—I will not say of England—that would be a libel on my country,—but under the rule of the squatter families, Anglo-Norman and Anglo-Irish, who for centuries have locally tyrannised the Irish peasantry, there is nothing more suited to the purpose than this tale of murder under gross provocation as it is told by Stephen. It will be quoted at the coming elections as a sample of the old world and feudal rule which the Irish people, with the help of their friends on this side of the channel, are about to uproot for ever. It will be used to strike down the relics of feudalism in this country, where, owing to more favourable circumstances, the rose has continued to bloom under the hoof of squiredom and the foul smoke of capitalism. To be turned out of house and home for not bowing to the squire or courtseying to the parson's wife is the only petty tyranny that remains in England to recall the conquest. The land of the shamrock until lately has been far off—a distant province, a pashalic, from whence tidings came slowly. I doubt if only fourteen years since we ever heard that Stephen had cudgelled Lord Leitrein for attempting to horsewhip him. We should know all about such a circumstance now within a few hours of its occurrence. More than that, a good half of the English newspapers would now cry bravo! Stephen; when fourteen years ago the act might have been treated as rebellious and an insult to our haristocracy. In fifteen years we have politically and socially advanced a century. I rejoice in the fact for Ireland's sake. A want of faith in the Irish people still exists. And more, I acknowledge it exists with some reason; but no true Englishman will read Stephen's confession without feeling the lip tightening, the fist clenched, and his heart opening to the wrongs of the Irish peasantry.

***

Another item I find is only of commercial interest. A patriotic German who got lost in a maze of figures lately made out that the North German Lloyd and Hamburg Company's steamers carried more passengers to America than the whole of the great Atlantic lines sailing from Liverpool put together. It turns out that the fogged German had taken the returns of passenger traffic by the German steamers for the past ten years instead of for one year as he intended. The rectification of the gentleman's error has brought out the further fact that the North German Lloyds, according to a statement just published by the *Vossiche Zeitung*, have lost in ten years trading 35,517,435 marks, and would have been bankrupt long since but for the Government subsidy it receives. A costly luxury.

***

Mrs Montagu arrived in Londonderry by mail train from Dublin yesterday and was lodged in Londonderry Prison. She was accompanied by two policemen and a female warder. She was conveyed in a covered car from the railway station to the prison, followed, but at a distance, by an escort of constabulary. Mrs Montagu wore a silk dress and had a heavy wrap around her head and shoulders. Her arrival, not being anticipated, created little public attention. Mrs Montagu, who travelled from Dublin in a first class carriage, looked remarkably well. On arrival at her destination she was at once visited by Sir William Miller, the prison doctor.

***

Yesterday Mrs Catherine Parnell, of Brighton, sued twelve of her late husband's tenants on the Parnell estate for non-payment of rent. Decrees were obtained in some cases, but in others it was proved by receipts that the rent was not due. It is stated that the customary reduction of 20 per cent allowed by Mr. Parnell has been refused and all arrears are claimed. Several writs have been served.

Such was the case as reported yesterday. Since then the solicitors have written to say that the late Mr. Parnell dying intestate his affairs are in chancery. The arrears of rent are therefore collected by the Court of Chancery to pay his debts.

***

Sir Arthur Sullivan was landed yesterday in an ambulance bed at Dover. The passage from Calais was calm and Sir Arthur did not suffer much from the long journey, but he looked very ill. He was attended carefully by Mr. and Mrs Doyly Carte. A large and sympathising crowd of friends received him at Dover and at Charing Cross.

PROVINCIAL NEWS.

Our La Plata exchanges are full of headings, sub-headings, and particulars in reference to a "personal incident" which occurred on Friday in the usually quiet capital of the Queen-province. The facts of the case are briefly as follow:—Governor Costa, accompanied by Minister Fonrouge and Messrs. A. Posse and B. Montero, was making his way from his private house to the Government palace and had just reached the corner of 47th Street, when Mr. Figueroa, accompanied by a few friends came in view. Mr. Figueroa, we may here state, was at one time an active member of the Provincial party and was recently dismissed from the provincial Engineers' Department. As Mr. Figueroa passed the Governor he saluted Minister Fonrouge. H. E. darted, we suppose, an official look at him: whereupon Mr. Figueroa went up to him and said: "Why do you look at me in that way?" The Governor replied:—"You will soon know, "compadrito," " and at the same time he whipped out his revolver. Mr. Figueroa withdrew a few paces and took out his revolver. In the meantime the two antagonists exchanged insulting words. A crowd very soon gathered. Finally the Governor was hurried from the scene by Minister Fonrouge and his other friends, Mr. Figueroa was hurried off by his friends. He went first to the Bolsa Café and then to the Federal Court where he began to chat with the secretary, when the Chief of Police entered and asked him to follow him. Mr. Figueroa offered resistance. Sharp words were exchanged, vigilantes were called in, and he was taken to the Police Department. It appears that the Secretary of the Court protested against Mr. Figueroa being arrested in the Court without an order from the Judge. It is rumored that a Commissary gave Mr. Figueroa a blow with his fist, but this has yet to be proved. The results of the incident are: great excitement in La Plata, departure of the Governor for the Armonia estancia, departure of Judge Aurrecoechea for La Plata, and arrest of Mr. Figueroa.

Alarming news was telegraphed yesterday from Cordoba. It appears that all the quiet residents there are frightened out of their wits in consequence of rumors circulating to the effect that Tuesday next will witness a coup d'état. The new Governor is to be installed. We hope these rumors are false.

Advices from Rioja state that diphtheria has broken out in that province. Diphtheria has now invaded Mendoza, San Juan, San Luis, and Rioja. The disease appears to be passing from one province to another.

On Friday the La Plata Deputies had a warm debate on the report of the Committee urging the House to throw out a bill exonerating persons who owe the Contribucion Directa or land-tax from fines during two months. The pros. and cons. were warmly set forth and the first result of the debate was a tie, 23 votes against 23. The debate was then reopened and the president gave the casting vote in favor of the Committee's report. In other words, debtors must pay up the fines. In the course of the debate the Finance Minister observed that the value of property in the province had fallen very little.

BUENOS AYRES GREAT SOUTHERN RAILWAY.

The gross receipts of this railway for the half-year ended 31st December were £417,000 and the working expenses were £194,000, leaving a balance of £223,000. From this balance must be deducted interest amounting to £120,000. The decrease in the gross receipts for the half-year is £148,000, or 26 per cent; and the decrease in the net profits £91,700, or 29 per cent. The working expenses amount to 46.60 per cent, as compared with 44 per cent in 1890. The receipts from passenger traffic show a decrease of 29 per cent; and from goods traffic a decrease of 28 per cent. The receipts per train mile have been 8s. 8d. in 1891, against 10s. 4d. in 1890, and the expense of working has been 4s. 0d., as against 4s. 7d.

Mr. Barrow, the general manager, reports "an increase of 36,900 in the number of passengers, and a decrease of £37,000 in the receipts. The reduction in receipts against an increased number of passengers is the direct result of our having found it necessary to add a lower proportion of the varying gold premium to the normal fares than in the corresponding period of 1890. For several months prior to the alteration of the premium charges, the number of passengers travelling had shown a serious and growisg decline.

Compared with the corresponding period of 1890, the goods traffic shows a falling off of 145,000 tons in weight, and of £101,800 in receipts. The decrease in the quantity of wool results from the unusual lateness of the shearing, and from slow markets. In sheepskins, hay and cereals, we have small increases, and in hides and grease there has been a falling off. In live stock we show a good increase. The stone traffic has become much reduced, and is at present practically stopped by the suspension of paving operations by municipal authorities. In general goods, which include nearly all the down traffic, the falling off is from 160,000 tons in 1890, to 96,000 tons in 1891. Imported goods are not now within the reach of the wage earning classes, and estancieros and agriculturists who are well able to afford outlay will not invest further capital in building and fencing materials so long as the political and commercial situation remain so uncertain. Compared with the corresponding period of 1890, with 94 miles of additional line and 15 new stations, the company spent £194,000 against £250,000. The train mileage has been reduced from 1,091,000 miles in 1890 to 958,000 in 1891, equal to 12 per cent. The receipts per train mile have fallen from 10s. 4d. to 8s. 9d., and the expenses from 4s. 7d. to 4s. The decline in the train-mile earnings arises from the further depreciation of the paper currency, the reduction in the passenger and parcels tariffs, the decrease in the tonnage of general goods, the lower rates charged for extension materials, and some other tariff concessions we have had to grant to enable us to retain traffic which can only bear the addition of a reduced percentage of the gold premium. The net earnings of the half-year are £91,700 less than in the corresponding half of 1890, and the working expenditure has been brought down in almost equal proportions. The reduction of net profit is the direct result of the continued paralyzation of trade generally. The year's harvest has given very satisfactory results on the whole. The wool clip is reported to show an increase of 25 per cent and the area of land under cultivation is being largely extended. The bad feature in our traffic returns is the serious reduction in general goods (imports,) and it shows how acutely the prevailing depression is being felt."

The directors' report proceeds:—From a careful study of the conditions which have led to the falling off in the net profits of the past half-year, the Board feel convinced that neither the traffic-producing power of the country, nor the profit-earning power of the railway, has been permanently impaired by the severe crisis from which the Republic has suffered during the past two years. By the report of the general manager it is seen that in spite of bad times, the volume of traffic in passengers and parcels had been maintained; a reduction of tariffs has resulted in lessened receipts.

In view of the adverse conditions which have influenced the business of the country during the half-year it is satisfactory to see that the undertaking has been administered with increased economy; the reduction effected in the gross amount of working expenses, in the face of increased mileage, reflects great credit upon the management. The general manager reports fully upon the position and progress of the new extensions. The line from Tres Arroyos to Bahia Blanca, 119 miles, and the section from Las Flores to Tandil, 92 miles, are now open for public service, and are being worked on revenue account as from the 1st January of this year. After providing for the debenture interest and all the extension capital chargeable to revenue, there remains an available balance of £131,000 out of which the Board have decided to pay an interim dividend for the half-year at the rate of 5 per cent per annum, free of income-tax.

CITY OF BUENOS AYRES TRAMWAYS.

The results of the past year's working stated in sterling are as follows:—Gross receipts, £95,000; working expenses, £88,000; debenture interest was £6,960, and income-tax £277; leaving a balance of £155. In accordance with the intimation of the chairman at the last meeting of shareholders, the results are shown in sterling, calculated at the average current rate of exchange. Comparisons with the figures of the past year are consequently of no value; but they will be resumed in future reports. The working expenses amounted to 92 per cent; the farms working account showed a profit of £764; the Municipal tax of six per cent. upon the gross receipts for the year amounted to £5,400. The local committee reports that the volume of traffic was good and steady during the year. The number of passengers was less by 353,000 than during 1890. The service has been carried on efficiently and to the satisfaction of the public. Owing to the depression of commercial affairs, to the fact that a large amount of wool is being held back by the producers, and to a partial diversion of the wool traffic from the City wool yards to the South Barracas Central Produce Market, less cargo has been has been carried than in 1891. The strictest economy in working has been exercised. The cost of fodder has been extraordinarily high during the whole year. The average cost of maize was $8 paper per ton. Bran also rose to a price unheard of previously, and hay has been high. The directors have been compelled to defer all capital expenditure as far as possible. The permanent way, buildings, yards, horses and stock are maintained in good working order. The directors enter fully into the question of an increase of fares.

RAILWAY SPEED

Rosario, May 12th.

Mr. Editor,

In the summer of 1888 a rivalry sprang up for the Scotch traffic between the Great Northern and the London and North-Western Railways, and the result was that both Companies determined to outdo the other in point of time and speed, and some marvellous running was the result.

The speeds of the trains to Edinburgh and Glasgow were as follows:—

Acceleration No. 1.—On June 2nd the L. and N.W.R. announced that its 10 o'clock express up and down would do the journey between Edinburgh and London in 9 instead of the old 10 hours.

On July 1st the Great Northern quickened their run to 8½ hours to Edinburgh.

On the 27th July the North-Western announced that from August 1st they too would run to Edinburgh in 8½ hours. The Great Northern promptly responded and in a few hours had issued its working notices all over the line to announce that from August 1st they, with the North-Eastern, would undertake the run in 8 hours. Both W. and E. coast-trains arrived in Edinburgh before time. Further accelerations took place until August 31st, when the climax was reached, and the run was made to Edinburgh in 7 hours 27 minutes, being over 57 miles an hour.

At this time the West Coast route (the London and North-Western and Caledonian lines) was doing the journey to Glasgow (401¼ miles) at an average running speed of 49 miles per hour, the Midland and Glasgow and S.W. lines (423 miles) at 49 miles per hour, and the East Coast route (Gt. Northern, North-Eastern and North British lines) with a route 43¾ miles long at 49¼ miles per hour.

The racing speed was not long kept up, the West Coast doing the journey afterwards in 8 hours and the East Coast in 7¼ to Edinburgh.

The followiug summer the races were not renewed, and I do not think that the speed has been since accelerated.

Yours truly,

Herbert W. Parratt.

THE LATE CANON FAHY.

Mr. Editor,

I wish to know if it is true that a large sum of money was collected some years ago, with the view of erecting a monument to the memory of the late Very Rev. Canon Fahy, and if so with whom was the money deposited, and what has become of it! Is it true that the exact place where Father Fahy's body was interred is unknown? If so why not have a monument erected in the Recoleta?

Miguel J. Byrne.

Ed. Note.—There was some money collected by the late Rev. John Leahy, of which a full account was published by him in the STANDARD. It was not sufficient to pay the funeral expenses, and a sum of $10,000 was borrowed by the Committee from the following persons:—

	$
Mr. Michael Duggan.....	2,000
Mr. John Hughes.....	2,000
Mr. Thomas Gahan.....	2,000
Messrs. Kenny Brothers....	2,000
M. G. & E. T. Mulhall.....	2,000
Total.....	10,000

This money is still due by the Irish community to the above persons, but they have practically renounced all claim to it.

EARTHQUAKE.

May 14th.

Mr. Editor,

Has anyone among your readers noticed a shock of earthquake at 2.10 a.m. to-day? I live ten miles from town, and was awakened at the hour by a dog barking. The windows rattled for two minutes, although the night was calm, and then all was still again. I fancied an oscillation from N.W. to S.E. or vice-versa. It was perhaps so faint a shock that no one would perceive it in town, or anywhere but in the quiet of the camp.

RAILWAY ITEMS.

It is announced from Santa Fe that, on Thursday night, Governor Cafferata, accompanied by Minister Carrasco and a distinguished party, left to open the new line that runs from Vera to the northern boundary of the province.

There was an "off the line" mishap to the train from this city to Santa Fe, near Sanchez Station on Thursday, but nobody was hurt.

The *Statist* of April 16th says:—"The Chairman of the Buenos Ayres Great Southern Railway, at the meeting, read a telegram giving, amongst other information, the gross receipts and net profit of the railway for the month of February: Gross, £92,640; net, £54,370. The publication monthly of revenue statements by this and some other of the leading River Plate Railway Companies would, we are sure, be gratifying to the stockholders in the companies.

Mr. Brian, on behalf of the Rosario Railway, has asked Government to repeal the decree of November 26, 1891, whereby the Company were to construct certain works near kil. 11, in order to give access to the river to Mr. L. Martinez, who has a property there. As soon as the Company began the works Mr. Martinez protested.

The Governor of Salta has again called the attention of Government to the high freights of the Central Northern Railway for the carriage of mineral ore. It appears that the mining industry is beginning to develop very rapidly in Salta.

EDITOR'S TABLE.

The night of nights is at hand: and if the Opera House is not crowded to the doors to morrow night, we'll stop sending the STANDARD to all those who are found absent from Charity's roll-call; yes, even if they be our oldest and most cherished subscribers. The Benevolent Society has special claims on the charitable public, and the Boys' Orphanage must be enlarged, owing to the ever increasing number of applicants for admission. Let a bumper be given tomorrow night to both institutions, and a deserved compliment be paid to the Dramatic Club at the same time. There will be trams and trains for all at the finish. A special passenger train will leave Plaza Constitucion at 11.30 p.m., stopping at all intermediate stations to Burzaco. We wish to call special attention to the fact that the 'Boleteria' is 'round the corner' in Calle Suipacha; and that gentlemen accompanied by ladies should obtain all needful 'entradas' for private boxes by application at Mr. William Mackern's book store before 5 p.m. to-morrow.

In consequence of the fall in gold the executive Committee of the British Hospital have decided to reduce the scale of fees for patients to $4 m/n for general wards and $10 m/n for private wards. H. B. M. Consul, Mr. Bridgett, is now President of the Committee, Mr. F. L. E. Wallace (Reconquista 449) is Hon. Treasurer, and Mr. William Goodwin (365 Reconquista) Hon. Secretary.

The Senators again failed to quorum yesterday, and Thursday is now fixed as the day for the opening of Congress. Senator Roque Saenz Peña has gone to the camp.

Dr. Kempt's patients are requested to take notice that he has moved to No. 474 Calle Piedad.

An enthused subscriber writes to us extolling the superiority of the boots and shoes sold at the "La Plata," corner of Cuyo and Suipacha, which he recommends from personal experience.

A special train for the Tigre boat races leaves the Central station this morning at 10.45; the 9.30 train also goes the whole way to the Tigre.

Lomas Harriers to the front again! We call attention to the advertisement in our columns inviting the members of the Harriers to a general meeting to be held at the schoolroom of the Lomas Academy on Tuesday evening next the 17th at 8 p.m. Master, Whips and Committee to be elected and meets arranged for the season. Every enthusiastic sportsman between Lomas and Burzaco should join (if he hasn't already joined) the Lomas Harriers—and may there be lots of pleasant runs to report this winter. Long life to'em, and may they "sport the green" for many seasons to come.

We are requested to advise the Cinderella dancers that the music for the first event on the card for Wednesday evening next will strike up at 8.30 precisely.

The following telegrams are detained at the River Plate Telegraph office, 287 San Martin: From Canova for Orlando, from Bordeaux for Pigneau 46 Catamarca, from Roma for Montero, from Lylle for Dupuennes, from London for Bridges.

We are requested on the part of Mrs. Michael Mulhall to acknowledge the receipt of $49 50 cents from Mr. Patrick Ham, being half the surplus left after the St. Patrick's Banquet.

In the article yesterday on the Finances of Uruguay the dollars should have been 48, not 43, pence.

The following are our selections for to-day's races at Belgrano:—

Premio Brandy Snap—Clairon
" Golondrina—Santa Lucia
" Mayo—Niobe
" San Martin—Sirince
" Clarion—Golondrina or Nogoya
" Gloria—Lego or Balmoral

The English Book Exchange, 333 Florida, has received from London new music: The Song that reached my heart, Taylor, Optics of Photography, Russel, Electric Light Cables, Morant, Chile and River Plate in 1891 Experiences, new novels by Tolstoi, and numbers of *Illustrated London News* containing sketches made by Mr. Melton Prior during his last stay in these latitudes.

On Thursday next a grand concert will take place at the Barracas Institute in aid of its funds. We refer our readers to the programme in another column. Nothing better could be given.

Notice has, we hear, been given to all Foreign Hospitals in town that unless arrears of rates for water are made good at once the supply will be cut off This is rather a high-handed proceeding, considering that these charities are maintained by private contribution and relieve the native hospitals of a very large portion of the sick poor who would otherwise be a burden on the general body of tax-papers.

We note in the *Argentine News* of Rosario a very eulogistic article on the Home of the Young Women's Christian Association in this city, which is under the able management of Miss Mac Gregor, a lady who has been long a resident of this country and is highly esteemed in all English-speaking circles. There is no charity in this city better worthy of support than this 'Home', which affords young women respectable and comfortable accommodation at very moderate cost. Young girls and women out of employment here should make it a point to go to this comfortable home. It is not necessary to be a member of the Y.W.C.A. to obtain the advantages it offers.

Villa Devoto was the scene of festivity on Thursday, for the marriage of Senor Buschiazzo and the charming Señorita Latorre. A banquet was served at the residence of the bride's father, who was one of the first settlers in the Village of the Heights when it was founded two years ago, and special tramway cars of the Lacroze line were engaged to take the numerous guests back to the city. This is the first wedding that has taken place at Villa Devoto, and the happy event was welcomed with great satisfaction by the villagers. The Señoritas Latorre, of whom the elder has just been married, have been the belles of the place, deservedly esteemed by all for their noble qualities. On the occasion of the wedding Messrs. Neumann of Calle Florida published a piece of music called Lune de Miel, dedicated to the bride by Maestro Conrado Herzfeld. This wedding has marked a new epoch in the Village of the Heights, and we echo the sentiments of the inhabitants in wishing Mr. Buschiazzo and his charming wife a long and happy life.

That little unpleasantness in the streets of La Plata on Friday in which Governor Costa played leading violin was a very pretty affair indeed. It is fortunate that no bullets were sent whizzing. We give particulars in another column. The whole town was talking about the affair yesterday. There is something highly disagreeable in the idea of the Governor of the Queen Province of the republic deeming it necessary to carry a revolver. We hope the event will not disturb the equanimity of our London friends.

In Paris the smell of garlic is a sign of bad times; here it is quite the reverse. A Frenchman says that among the certain signs of hard times in Paris are, when the billiard rooms are deserted, and working men smell strongly of garlic and onions. The former means that no loose coppers are available to pay for the use of the table, and only those who take part at least in one game have the right to the shelter, or the pleasure of the room. But the garlic etc. test? The workman rubs his crust with a lobe of garlic—an exciting bulb, and this not only gives a relish to the bread, but imparts an exhilarating feeling to the system, replacing wine and meat. A bacteriologist claims that garlic destroys microbes, and the latter swarm in the mouth—including the prettiest that exists. The order of Chivalry established by Alphonse, King of Castille, in the fourteenth century had a condition that none of the members of the order should eat garlic or onions, under pain of being excluded, for one month, from the palace.

A deputation of old subscribers waited on us yesterday and presented us with an address of gratitude for our having applied the "closure" to the Ballyhooly question As is usual on such occasions, we were deeply affected when replying, but got through the ordeal, assisted by the loud and long-continued cheers of the deputation.

At Montevideo yesterday, which was the birth anniversary of his late Holiness Pope Pius the Ninth, a commemorative slab was placed on the house in which the deceased Pontiff resided while in Montevideo in the year 1825.

The Bishop of Montevideo and a distinguished party arrived here yesterday, to attend the religious ceremonies at Lujan during the week.

It is said that Emperor William intends to astonish the world and his wife and daughters at the Chicago Exhibition by a wonderful display of the death-dealing instruments that the Fatherland has at command. He has personally urged Krupp, the noted gun-maker, and Schlutow, manager of the ship-building works at Stettin, to exhibit the latest and best products of their vast industries.

In Montevideo they have invented a Hypothecary Bank dodge that nearly comes up to the Centros Agricolas on this side of the river. The thing is managed by means of fictitious leases at very long dates, the rent being made to appear as all paid in advance.

Here is a story from Paris about the quondam idol of the modern Gauls, Lesseps:—"Cavour observed, that agriculture is the refuge of all vanquished men; Thiers maintained study was the true consolation. Of course it can be only a joke, making M. de Lesseps quit Paris to farm his estate. He cannot fall back on books, as his literary abilities are slender, though he be an Academician. He is also President of the Geographical Society, and once related, that on the occasion of his examination for B.A. at the Sorbonne, he was requested to indicate on a map the four cardinal points; he could not do so, alleging he was never taught Geography at his college."

The City Fathers met on Friday and began by taking the minutes of the previous sitting as read, as they involved a repetition of the dreary speeches on the Mataderos question, an infliction which most of the T. Cs. frankly declared would endanger their reason if attempted. The ediles then set to work and threw out without more ado some veto of the Lord Mayor in reference to the eternal and never-to-be-settled question of theatre inspection. It was resolved to summon the Lord Mayor to attend on Monday and explain some fresh sin which he has fallen into by closing the street across Plaza Constitucion. Alderman Wilson called attention to the danger to public health involved in allowing war vessels into the Darsena.

A match will be played to-day at 1.30 on the Belgrano Polo Ground between the second team of the Quilmes Athletic Club and a second team of the home club, in which the following gentlemen will take part. Quilmes Athletic Club:—Messr

Chascomus, March 23rd 1891.
Dear Sirs—
"I have tried HAYWARD'S "PASTE" DIP on my Sheep, and have pleasure in bearing testimony to IPS EFFICACY AS A DIP. I need have no hesitation in recommending it generally as a Cure for Scab, without discolouring or damaging the Wool.
The "A.S.E" is in my opinion preferable to the Powder, and will probably have a larger sale than the latter."
Yours very truly
(Signed)
JOHN KELLIE.
It has been proved by many important Estancieros that HAYWARD'S PASTE is more convenient to use than any other Dip, being already mixed and dissolving in any kind of water. It makes a smooth soapy bath which adheres well to the Fleece and leaves the wool clean and soft.

Fifteen hundred sovereigns were sold at 16 55 to 16.48$, closing at 16.53, say 228 % premium. Gold continues freely offered on time.

It was stated to-day that very favorable telegrams had been received from Europe announcing a general rise in Argentine stocks and securities on the London Stock Exchange. The rise is said to be specially remarkable in railway shares.
Exchange on Europe was slightly firmer this morning at the following rates:—
47⅝d. on London
5.02½ fcs. on France payable in Paris
4.06 marks
5.03 to 5.03¼ fcs. on Antwerp.
In the afternoon, however, rates weakened again and the market remained very flat.
Shares of the Banco de Italia y Rio de la Plata advanced to 75 gold this afternoon.
The Department of Lands and Colonies has sold to Don Manuel Dolz ten thousand hectares of land in Misiones territory at $6,000 % per league, payable in eight years. The concessionaire is bound to put one family and farm to every lot of 200 hectares, within a term of 4 years; in the first two years at least one-fifth of the land must be put under agriculture.
The gold market was slightly firmer at the second ring: thirteen thousand ounces were sold for to-morrow: the price opened at 53.10$, rose to 53.40, and closed at 53.20, same price as in the morning. Three hundred sovereigns were sold at 16.51 and 16.53. Patriotic Bonds were much firmer. Catalinas, for a wonder, rose buoyantly, and closed at 7.60: the rise made the market stare. La Plata Cedulas were slightly weaker.
The following is a summary of the business effected in stocks and shares to-day at the second ring:—

The English Bank of the River Plate will resume its nominal banking status in July; this is good news for all concerned.

The R. M. S. Elbe arrived at La Plata this morning early; her passengerst came up in a special train. She left Southampton on the 21st ult., called at Lisbon, Vigo, and Madeira. The Lamportand Holt steamer Leibnitz left England a day earlier direct for B. Ayres, but has not yet arrived; the Elbe passed her at Madeira. The Royal Mail steamer is posted to return direct on the 23rd inst.

The exchange market ruled very dull all day; sterling was quoted at 47¾-4d.; francs at 5.02 to 5.03; drawers; francs are a shade firmer. Discounts are easier all round.

The gold market was weak at the second ring: eleven thousand ounces were sold: the price opened at $52.70, fell to $52.50, and closed at $52.60, say 223¼% premium. One thousand sovereigns were sold at $16.39 to $16.35, closing at $16.36, same price as in the morning.

Patriotic Bonds were in stirring demand at the second ring; they rushed from 62¼ to 63.20 for to-morrow, to 63.30 for end of month and 63.70 for end of June. Internal Bonds advanced to 54.70 and 54.80.

The following is a summary of the business effected in stocks and shares to-day at the second ring:—

Old Gas Shares—

The Share board began to resume its familiar aspect of the old palmy days of speculation; the rows of chalk figures this afternoon pointed to a general revival. Catalinas are the first to come to the front; over three thousand were posted at advancing prices; the quotation opened at 8 and rose to 8.70, closing at 8.50; the rise was meteoric. Banco del Comercio shares were done at 75 and Old Gas shares jumped ten points from 65 to 75. An incipient boom is marked on the black board.

The Gefe de Resguardo has informed the Minister of Finance that an efficient staff has been posted at the mouth of the Guazú river to prevent the wholesale smuggling going on in that quarter for so many years.

Mr. David Cogan has offered to buy from the National Government two hundred rolls of wire lying at Paso de los Indios in the Neuquen territory. The wire was sent down to erect a telegraph line.

The Department of Engineers have applied to the Minister of Finance for 15,500$ to defray expenses of the canalization of Martin Garcia during the month: another sum of 36,500$ is requested for expenses of the Riachuelo Works for this month also.

In consequence of the difficulties arising from the decree of April last to the effect that all Custom House documents must be translated by Public Translators' Government has revoked it, and the signature of the party interested will suffice at the foot of any translation.

Advices under date London, April 22, announce:—

"Dullness again predominated in the markets yesterday, the only notable exception being the Kaffir circus, which was stimulated by favourable estimates of the April crushings of the Witwatersrand mines, and in which a further advance seems to be on the cards. Yankee Rails, after a brief attempt at a recovery, relapsed into dullness. They are at present entirely governed by movements in Wall-street, there being no disposition here to take a hand in the game. Foreigners were heavy in the early dealings, closing, however, generally above the worst, Russians being the strongest market. Consols hardly moved; but Rupee Paper improved on a rise in silver. Home Rails generally were the turn firmer, some semblance of spring weather having at last made its appearance; but there is, of course, little reliance on such weather markets.

"Foreigners opened heavy, Portuguese and Italians being especially flat, and although Paris came in a buyer in the afternoon, the changes for the day were trifling. Argentine Government stocks were favourably affected by a decline in the gold premium to 242, the Loan of 1886 regaining 1 at 67, while the Funding Loan maintained the previous quotation. Some of the National Cedulas eased off ¼, but the Buenos Ayres series closed firm, Cedulas 'D' at 84. Brazilians were out of favour, and reacted ½, the outlook in that Republic being considered ominous. Uruguay and Honduras were the turn firmer. Costa Rica 'A' and 'B' Bonds and Paraguay Bonds rose 1; but Santa Fé Western Central Colonies and Reconquista Bonds declined 1.

"Foreign Railway stocks showed dulness, Buenos Ayres Great Southern, Central Argentine Ordinary, and Interoceanic of Mexico Debenture Stock losing 1. Chartered Mercantile Bank of India, London and China improved 1 on the result of the shareholders' meeting. London Chartered of Australia and London and River Plate Bank shares gained ½. Nitrate Rails recovered ½, to 17. De Beers eased off, and Katanga shares declined ½, to 19½.

"Montevideo Waterworks Company (Limited).—The net income amounted to £47,687 as against £53,128 in 1890. An interim dividend of 2½ per cent. was paid on November 1st, absorbing £10,000, and the Directors now recommend a further dividend of 2½ per cent. (making 5 per cent, for the year), and carry forward £2,256. The exclusive character of the Company's concession expired in March, 1891. A provisional arrangement has been arrived at under which the Company retains all rights and privileges with the exception that the subvention is reduced from $4,600 to $500 per month. The $500 has been duly received in respect of the nine months from April to December, 1891, and has been credited to revenue account.

"Royal Mail Steam Packet Company.—The Directors recommend a distribution of £1 per share for the half-year ended December 31st last, tax free. This compares with £2 per share a year ago."

PHOSPHATIC
BAKING POWDER
BARON LIEBIG, the world-renowned chemist said, "I have though a great series of experiments, satisfied myself of the purity and excellence of your preparation The bread has no acid, is easily digested, and of the best taste. Aside from the conveniences this invaluable idea of yours has provided, I consider this invention as one of the most useful gifts which science has made to mankind It is certain that the nutritive value of the flour will be increased 10 per cent by your invention, and the result is precisely the same as if the fertility of our wheatfields had been increased by manure.
What a wonderful result is this !"

Flour Mill
TO BE SOLD

A flour mill of recent construction, established in one of the most important agricultural colonies in the Province of Buenos Aires. The mill is erected beside one of the stations of the Western Railway and has rails laid to the galpons in order to facilitate the loading and unloading of grain. The situation of the mill is unsurpassed, being in the middle of a most extensive zone of wheat cultivation. The local sale of the flour produced by the mill is easy and abundant, as there is no competition, the nearest mill being at a distance of forty leagues.

The property will be sold on extremely favourable conditions, as the owner is no longer able to give it his personal superintendance.

Further details can be obtained at Alsina 416 or Peru 308.
